DIN A5

7 | **BOX+ sealular**

High security tamper-evident adjustable length security seal with a robust construction that prevents accidental breakage (ribbon diameter 3.8 mm). This seal is very popular in industries such as Post/Courier Services, Chemicals and Transport. Various ribbon lengths and tag sizes available allow all kinds of customisation. Optional bar-coding for efficient data capture. Available in a range of colours. The Unisto Modular seal is available with a removable sticky label which avoids any script error of the numbering (same number on both seal and label). This enables very fast and easy recording of seal numbers.

**Type of Sea : Adjustable Lenght Seals
Application : Boxes, Bags, roll cagges**
- Various colours for logistical colour coding
- Customer name/logo for clear identification
- Various sizes of tags allow all kind of customisation
- Bar-coding ensures fast and accurate data capture
- Notched ribbon fits several applications
- Locking mechanism of POM increases security level

8 | **LABEL POCKETS AND FOAM INSERTS**

- Cushioning (foam inserts, foam inserts for lids, individual foam inserts)
